Now financial institutions and payment processors can take advantage of the cost-saving benefits of Epson's new sheet-fed color scanner.

With its innovative new features, speed and reliability and advanced scanning technology, the Epson GT-S80 sheet-fed scanner is ideal for commercial lockbox applications.

Epson's GT-S80. Packed with the features you need.

Epson's GT-S80 high-quality sheet-fed scanner offers financial institutions and payment processors all the features they need to successfully capture remittance documents for their lockbox applications. The GT-S80 scans both sides of a document in just one pass, easily handles documents from card size up to 8.5 x 36 inches at speeds up to 40ppm, scans at 600dpi resolution, eliminates two document scanning with double-feed detection and has easy one-touch controls.

Epson imaging technology

Epson is a leader in digital imaging and the GT-S80's advanced imaging technology offers a host of innovative functions including automatic paper size detection, hole punch removal, de-skewing, background color removal and more. And it offers scanning options for full color, grayscale or bi-tonal output.

Environmentally-friendly ReadyScan LED light source

Unlike other scanners in its class, Epson's ReadyScan white LED light source uses less power, requires no warm up and contains no mercury.

Easy system integration

Epson's GT-S80 includes TWAIN and ISIS® drivers and supports Hi-Speed USB 2.0 and a variety of operating systems including Windows 2000/XP/ Vista and Mac OS 10.3.9 or later.

Backed by Epson

Epson has developed high-quality, award-winning commercial image scanners for over two decades. The GT-S80 sheet-fed scanner offers the same high reliability and quality that Epson is known for and is backed by Epson's industry-leading service and support programs.
